

How do you get high-quality nucleic acids

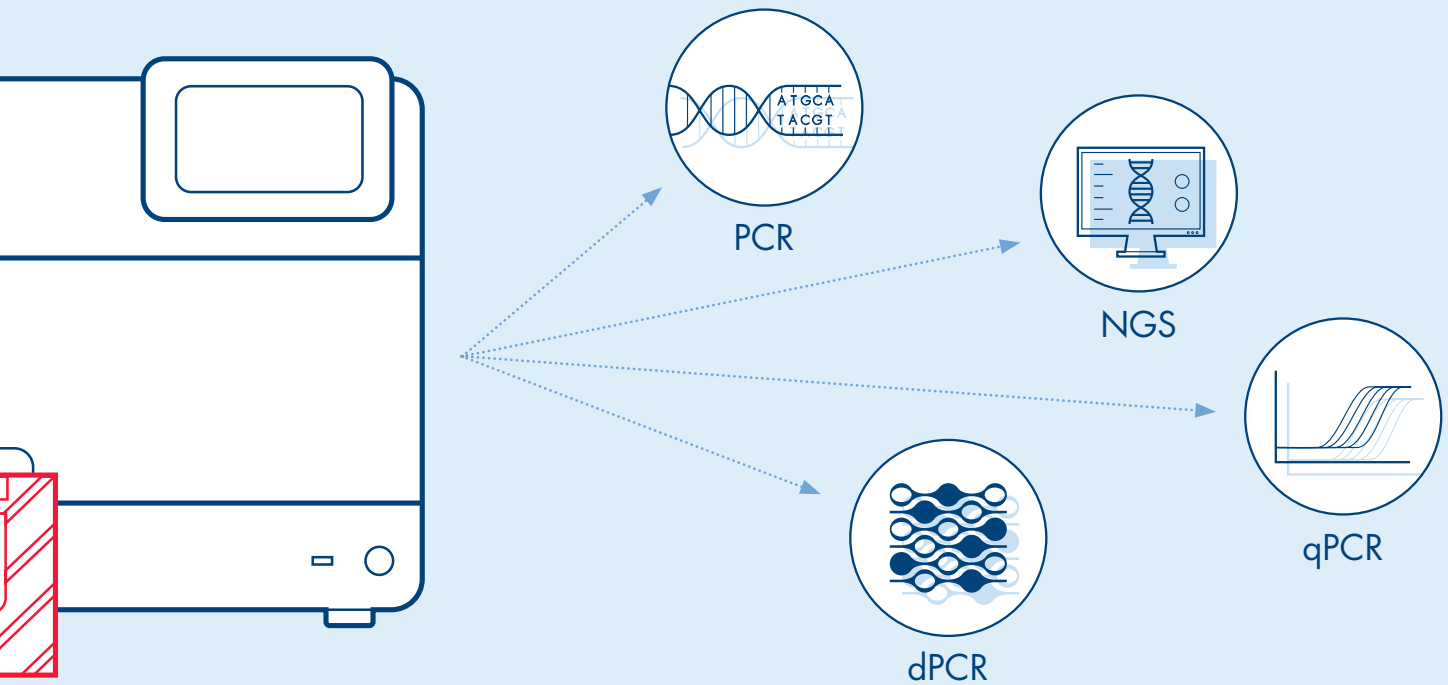

Consistently, conveniently and quickly?

Simplicity. Safety. Speed. EZ2[®] Connect.

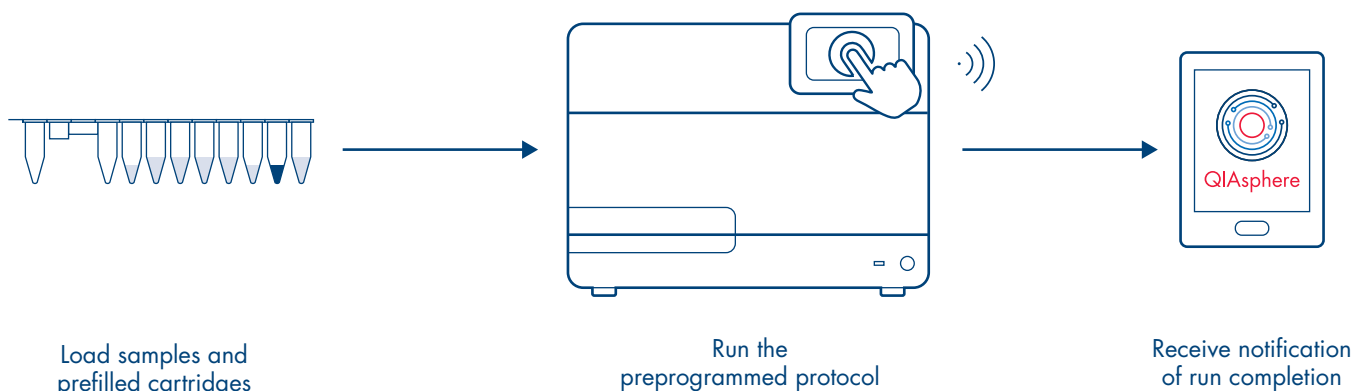

- Purify DNA and RNA from as many as 24 samples at the same time
- Boost reproducibility and convenience with prefilled reagent cartridges
- Cut down pretreatment efforts with on-board heating and reagent pipetting
- Process large sample volumes if needed, for high yields and sensitivity
- Stay productive even outside the lab with [QIASphere[®] connectivity](#)

Wide kit portfolio supports multiple applications

High-quality nucleic acids in three easy steps

Automation made accessible

Unrivalled ease of use, confidence and convenience are now well within your reach.

Contact your sales representative to find out how easily you can get an EZ2 Connect for your lab.

The EZ2 Connect is intended for molecular biology applications. This product is not intended for the diagnosis, prevention or treatment of a disease.
